

Member Guide: The McCloud Case Remedy Timeline

2021

2022

2023

Government and MoD Prepare, Consult, Legislate and Implement

4 Feb 21 : Govt. Announcement

18 Mar 21: FPS Key Success Criteria issued

Late 21: Legislative Consultation

The 4 Feb announcement is the start of a protracted process. Legal and administrative preparation (including online calculator development etc) will take several months and are unlikely to be complete before the end of 2021. Members need do nothing until they are contacted by MoD / Veterans UK

Legacy schemes close, MoD begin to engage with individual AFPS members who are either retired or plan to retire before Oct 23

31 Mar 22: Legacy Schemes (75, 05) close

1 Apr 22: Those who remain in service do so as members of the reformed 2015 scheme

After 1 Apr 22 the discrimination will have ceased as everyone will be treated the same from this point onwards. All serving members will be put back on their legacy schemes for the remedy period (1 Apr 15 – 31 Mar 22) but will have the opportunity to choose on retirement whether to have been on their legacy scheme or the 15 scheme during the remedy period

By Oct 23: Retrospective changes in place (by law)

If the detailed legislative and administrative underpinning has been completed before Oct 23, MoD / Veterans UK may decide to adopt the 'steady state' processes before that date. Once Members receive individual correspondence from MoD / Veterans UK (towards their retirement date), FPS will be able to assist your decision making

After Apr 22 and by late 2023, AFPS members offered choice on retirement

FPS Comments

'Complicating factors' include: Annual Allowance and Lifetime Allowance charges and calculations; AVCs/Additional Pension; Pension Sharing Orders; Abatement; Death in Service or in Retirement; Medical Discharge. The impacts these and other factors have on the value of the pension benefits you will receive can only be determined once MoD/Veterans (UK) have completed the necessary administrative work and informed you of their calculations.
